DO YOU WANT A CLEAN, HEALTHY CARPET?

Which is more important to you, a clean carpet or a clean and healthy carpet?

Yes, I assure you there is a big difference.

Each carpet cleaning method has advantages and disadvantages. Some methods will get out only dirt; other methods will get out dirt and grease. Still others will get out virtually everything. And to be sure, some are more expensive than others.

If all you want is a cheap, rinse the dirt off the top procedure, which you might find for around \$10.00 per room, then I respectfully ask that you call another company.

But if you want to protect your health, your investment in carpeting and your family from the countless bacteria, fungus, pollens and dust mites that reside in your carpet, then you are invited to call us.

The truck-mounted hot water unit we use is the most effective cleaning system available today. We bought this expensive unit for a good reason; more and more families want the good health benefits that come from having a fresh, clean carpet.

Have you ever seen how dirty a little boy's pants get when playing outdoors? If you have, then you would know you can brush off his pants and make him think they're clean. Or, if you want the job done right, you can machine wash them in hot water and detergent and you will KNOW they are clean.

The same is true for your carpet. You can hire someone for \$25 to \$50 who will "brush off" your carpets and make you think it's clean. Or, if you want the job done right, we will clean your carpets with our hot steam extraction using our state of the art cleaning equipment and then you'll KNOW that they are clean.

So if you want a thoroughly clean carpet, if you're willing to invest in your family's good health, you should give us a call.

You will receive a written estimate, at no extra cost or obligation prior to commencement of work being done, if you give us the go-ahead, you're further protected with our....

100% WORKMANSHIP GUARANTEE
